PERSONAL PROFILE

Lifelong learner seeking a junior position in web development. Having spent the last two years learning modern web based technologies while maintaining a leadership position at my current place of employment, I am sure I will be an asset to your company.

TECH SKILLS

- HTML5
- CSS/Sass/bootstrap
- Javascript/React/Node.js
- Express, MongoDB
- Wordpress
- Git
- Google Dev Tools
- Adobe Photoshop

OTHER SKILLS

I am multilingual and can speak natively in English, Spanish, and Portuguese . Due to my work history I have excellent people skills and am very confident when dealing with customers .

EDUCATION

Colt Steele Bootcamp -2021

Solidified my front-end skills and learned new back-end skills. Received excellent grades on all projects and exams

Pace University

Bachelors of Language Culture and World Trade Class of 2013

My degree focused on global economics while incorporating the study of two foreign languages.

PROJECT HISTORY

My projects have evolved over the years from simple static websites, to full stack data driven apps used to streamline my current job. I have created dozens of projects and I urge you to checkout my portfolio website and github profile Below are the projects I am most proud of.

LeaseMaster

-Full stack application that allows me to keep track of all leases I oversee. I can add, edit or delete lease info . I also get alerts about expiring leases

Romance Translator

- When studying romance languages I often confuse the words due to similarities. This application allows me to input a word in English and see it translated instantly into the four Romance Languages that I study

EMPLOYMENT HISTORY

Property Manager

Abele commercial August 2015- Present

I manage over 350,000 square feet of commercial office space. I am in charge of tenant relations and leasing. I Lead a team of maintenance techs to keep properties in excellent shape. I also built and run company website

FRONT DESK

Sanctuary Hotel April 2012 - August 2015
